Shrubs- Various Juniper, Silver Sage, Blue Dwarf Rabbit Bush, Various Dogwoods

Trees- Douglass Fir, Baby Blue Spruce, Prairie Gold Aspen, American Plum

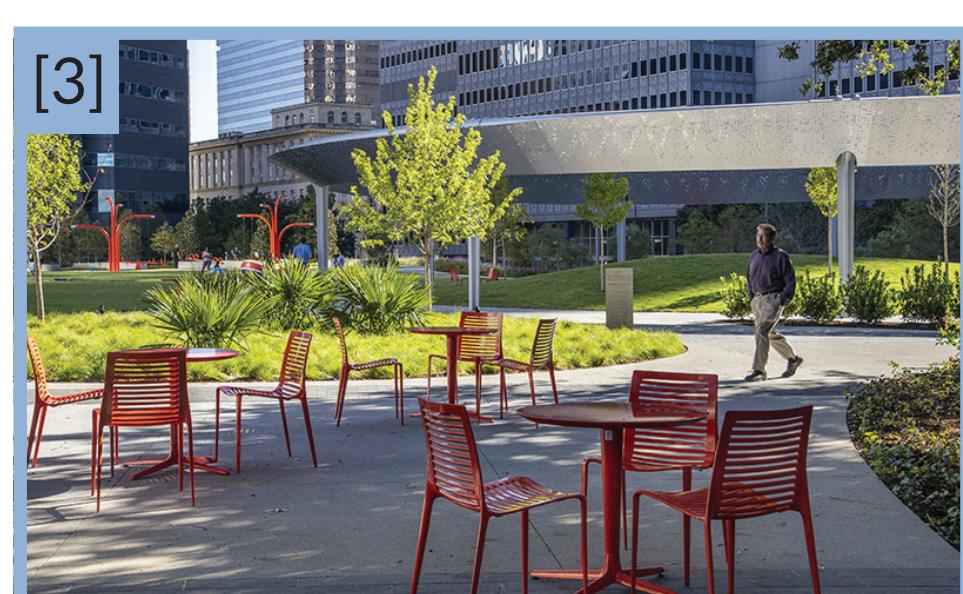

ACTIVITIES

Mist Arch- This installation will provide relief from summer heat, and provide visual appeal and intrigue.

Natural Play- Rocks and logs will stimulate children and pique their interest in the natural beauty Estes Park has to offer.

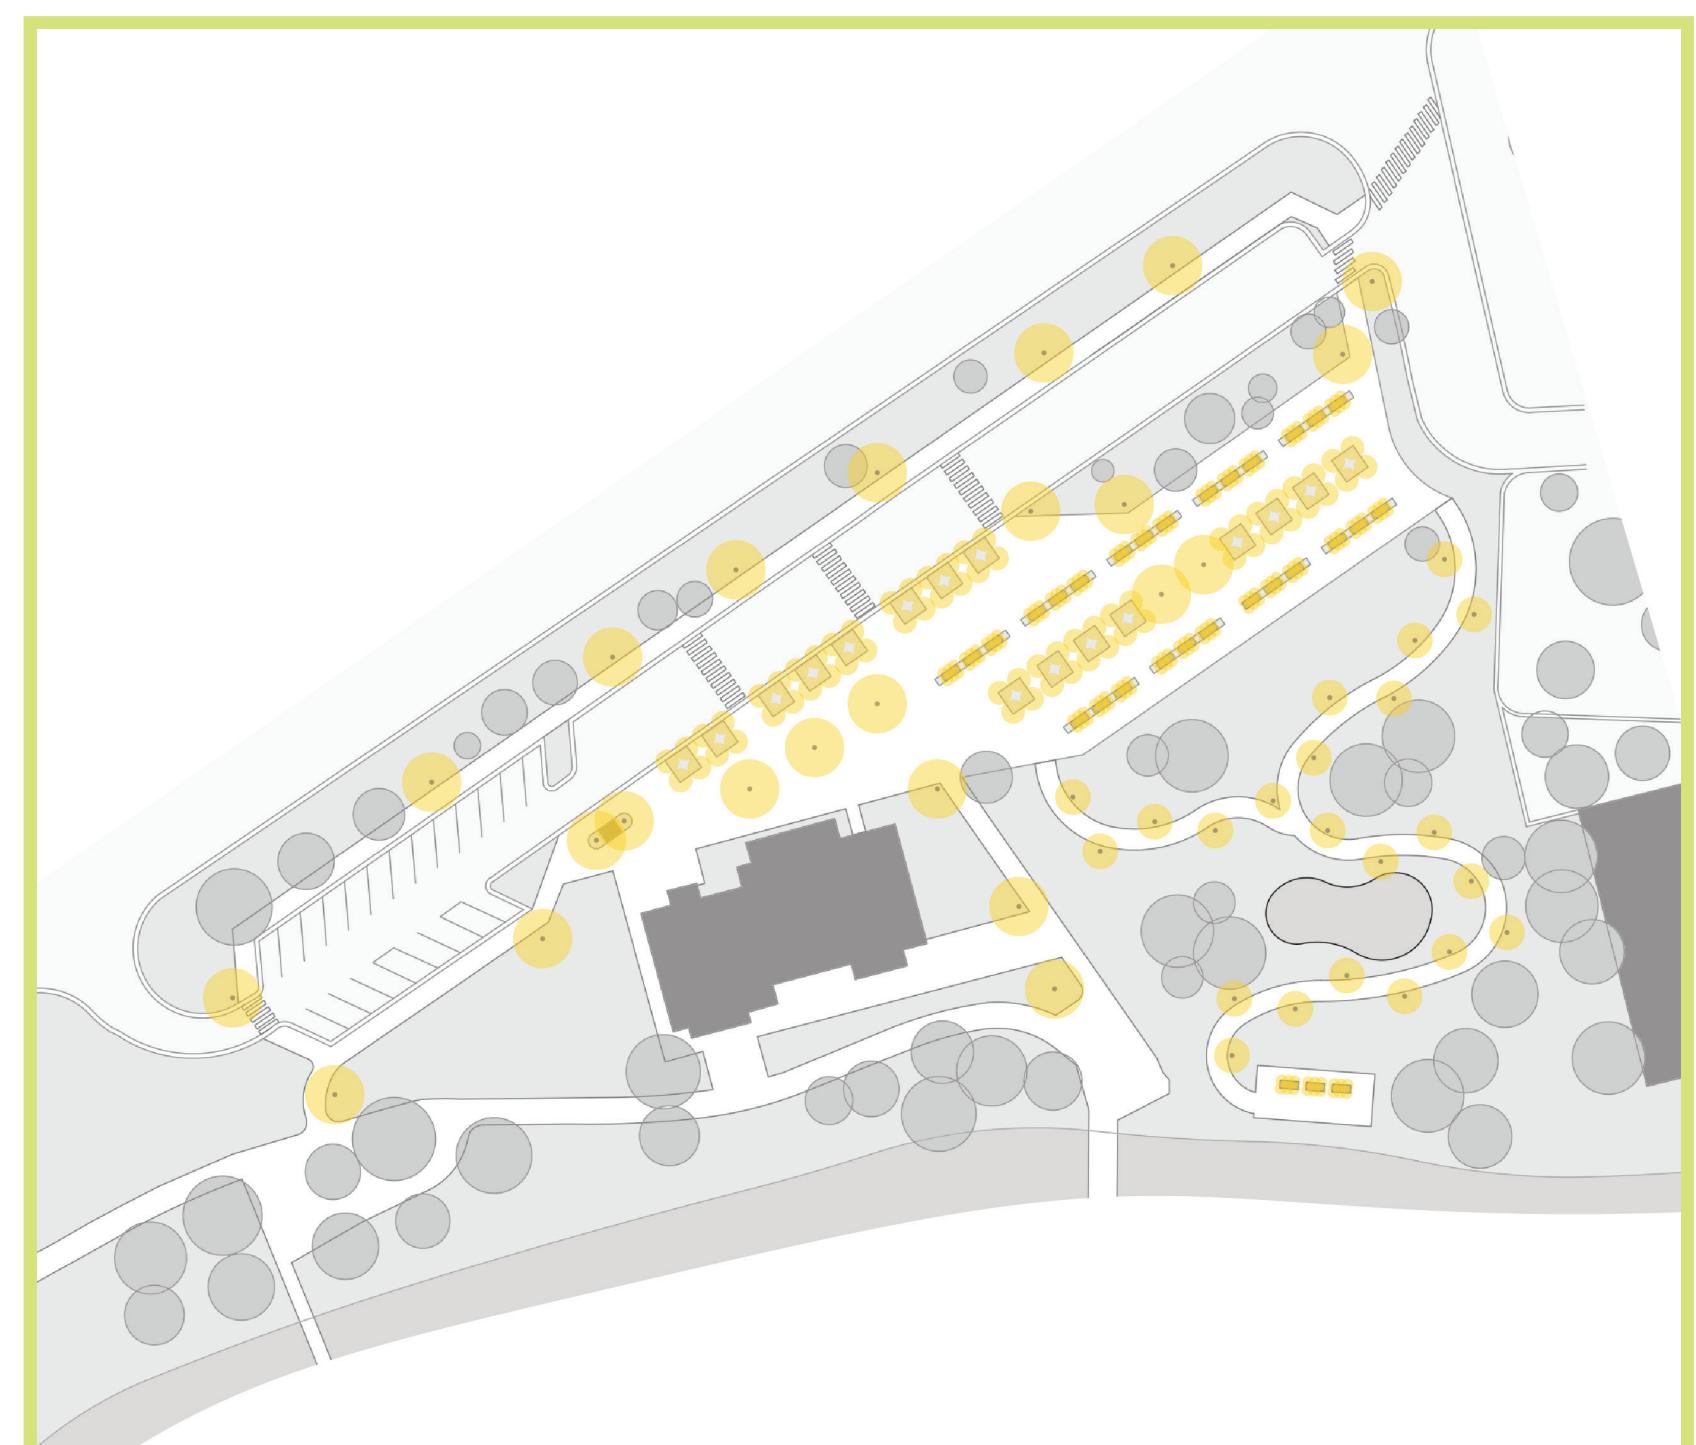

Flexible Seating- This seating provides maximum flexibility, and support to farmers market activities while permitting open space

Bench Seating- This type of seating defines site circulation while providing the perfect layout for hosting farmers market events.

DIAGRAMS

Lighting- A range of dynamic lighting fills the space with ambient light while minimizing light pollution.

Stormwater Management- Stormwater management tools include a large stormwater retention and filtration pond, rain gardens, Increased vegetation along riverbank for filtration and stabilization as well as native grasses throughout the site that serve naturally to filter runoff.
